ABOUT ME

Innovative and adaptable full stack web developer passionate about building scalable, user-centric web applications. Skilled in both front-end and back-end technologies, I bring ideas to life through clean code, intuitive design, and efficient architecture.

CERTIFICATION

React Developer Bootcamp: Master React in Live (Batch 3) LEARNZ Development Hub – Completed April 2025 Successfully completed an advanced, hands-on bootcamp focused on mastering React.js. Gained deep knowledge of core and advanced concepts including components, props, state management, Redux, Redux Thunk (async operations), and building scalable React applications. The course emphasized real-time development and project-based learning for production-level React applications
**LEARNZ Development Hub -2025 **

Completed an 8-month intensive Full Stack Development program at Edex Tech IT Solution, Madurai in 2024, where I gained hands-on experience in designing, developing, and deploying full-stack web applications. The program provided practical exposure to real-time projects, enhancing my understanding of the complete application development lifecycle and modern development practices.
Edex IT Solution -2024

SKILLS

Client-Side: HTML, CSS, JavaScript, React.js, Bootstrap
Server-Side: Python, MongoDB, Spring Boot, Node.js, C

Experienced in using Git for version control and GitHub for source code management and collaboration, including managing project updates with git push, pull, and clone throughout the development cycle.
